3. I raised with Mr. Kirkpatrick and Mr. Warner (the Acting General Counsel) the question as to whether we should seek from the various components of the Agency any requests they may have for proposed legislation for CIA other than that contained in the Career Service Program. It was agreed that I would raise this question at the DD/A staff meeting and with such other components as appropriate without sending out a formal written call.

4. Col. White informed me that the Director had returned to him the proposed personnel actions which had been brought to him by AD/Personnel on the Assistant Director and Deputy Assistant Director of SI.
